improve your driving safety, enhance the life and extend the service life of your tires

- * Two pressure unit(PSI / bar) supply for user to select
- * Conveniently install, water resistant
- * Sensors batteries will last up to three years (you can replace the battery Autonomously, do not need to return to manufacturers)
- * Sensors transmit pressure and temperature data every 3 seconds
- * Sensors can detect 0-15BAR tire pressure

To secure you a driving experience and extend the service life of the tire

Research shows that 30% car accident is caused by tire failure, 50% tire life time reduction is caused by under-inflation or inflation

even most of them looks like the tire are properly inflated.

Thus, you are in need of a TPMS (Tire Pressure Monitoring System) to help you monitoring the tire of your vehicle and w about

the abnormal tire temperature and pressure——only to increase driving safety and reduce car accident.

Note: Install the tire nozzle must be threaded.
